

CORNAREA

SPUMANTE MAPOI

The spumante **Mapoi** Cornarea is produced with **100% Arneis** grapes. Obtained with the long Charmat Process, Mapoi has the qualities of an Extra Brut.

The nose detects a characteristic mineral note due to the presence of magnesium in the soil, the taste is a well-balanced wine all the way to end, never bitter thanks to the natural mellowness of Arneis.

Matching: its very balanced acidity and the not excessive mellowness make this spumante suitable for any meal and not only as an aperitif.
